in light refreshments under "the marquee".*

*Dr. Lou Dryden, President, North Island College will  
deliver the Keynote speech at the Grand Opening  
of ElderCollege on September 25, 1999.*

On behalf of the Advisory Committee I am pleased to welcome you to the second newsletter with its invitation to our special event, **The Grand Opening**—September 25th and **Course Descriptions** for our first semester, October–December, 1999. Your Curriculum Committee has put together 11 courses—an amazing feat for a first effort. All committees, over 60 members, have been working hard to bring you a semester of learning. Our first term will be challenging and informative, tailored to satisfy your intellectual curiosity, providing you with an opportunity to meet interesting people in our Valley—all coming together in the pursuit of "learning with a difference."

We realize as we work together that we are creating the 'structure' of ElderCollege, sometimes developing policy after the fact. With the support and patience from our members (over 200), North Island College (NIC) and the community, we believe we have a wonderful institution for lifelong learning for our members of the third age.

Please come and join us to celebrate our beginnings, September 25th, 10 A.M. to 12 noon at the Stan Hagen Theatre. Meet the people who, because of their commitment, support and faith have made this all happen—Dr. Lou Dryden, President of NIC; Jim Hooton, Campus Director; our 'first faculty'; special guests and ElderCollege committee members.

We look forward to meeting you and sharing a great semester of learning.

*Sincerely,*

*Betty Emery, Chair,  
Advisory Committee*
