
Silver Jewellery Express II

In this fast-paced and exciting workshop, a continuation of Silver Jewellery Express I, you will be creating two more sterling silver projects. Learn new techniques such as advanced fabrication and soldering, creating a tube setting for a ring and setting the stone with accuracy. We will be adding texture by introducing surface ornamentation techniques using our studio stamps and hammers, fusing with metal, and coloring with patinas. Advance your skills and reignite your creative process in a creative group atmosphere. This course is designed for those who have taken Silver Jewellery Express I or an equivalent course.

Note:

This course is designed for those who have taken *Silver Jewellery Express I (GENI 1204)* or an equivalent beginner jewellery workshop. If you have taken the longer *Silver Jewellery Making – Beginners course (GENI 1205)*, the follow-up course *Silver Jewellery Making-Beyond Basics (GENI 1206)* is recommended instead. GENI 1206 is also recommended for those who complete this Express II course, to gain even more skills!
